REPRESENTATIVE IN
Buenos Ayres
Edw. F. Powers.

The above Company have acquired the Rights, Patents, Concessions, Goodwill and Interests of Frederick Allan Gower and Benjamin D. Manton, as existing under a contract between them, dated July 26th, 1880, in the City of Providence, Rhode Island, in the U. States of America.
It is now the purpose of this Co pany to extend Telephonic Communication to the Public of the City and Province of Buenos Ayres on a more thorough and systematic plan than heretofore attempted. To accomplish this they will supply the latest approved form of the Gower-Bell long-speaking Telephone with appurtenances for same of the most recent and perfect manufacture, and at the same time having at hand a thoroughly experienced and efficient staff of operatives and assistants, hope to attain such success as will bring them to the front as the First Telephone Company of the River Plate.
When a commercial, and even a social, community have the full benefits of a well-organized Telephone system, it is only then the many and great conveniences of this wonderful invention are thoroughly understood and fully appreciated. It is the wish of the Company to effect this in Buenos Ayres, as has already been done in all large cities of the United States, where it is estimated more than 500,000 instruments are in use. In fact, it has come into such universal use there that its loss would be most severely felt by the Public generally. The Company will introduce into this city the American system in its entirety.
The management would ask the kind indulgence of the Public for a few weeks, as much has to be done and many obstacles overcome before the proposed system can be put in a satisfactory condition, at the same time he begs to state it will be his utmost endeavour to give as perfect a service immediately as is consistent with the multitude of work on hand.
As Buenos Ayres is a city of magnificent distances, the Gower-Bell Telephone will be found in its working the most practicable as well as the simplest and strongest instrument ever invented, and it was on account of these favorable and self-evident qualities that it was specially adopted as THE TELEPHONE for the Telegraph Department by the British Government, who have contracted with the above named Company for 15,000 instruments. It is also extensively used in France and Belgium, where it has given general satisfaction.
The Company has secured the fine and commanding premises situated at 128 Calle Florida, where it would be pleased to exhibit the working of its system to those of the public who are interested in the development of this great time-saving invention.
Subscriptions to Exchanges, $175 per month.
Private Lines, special terms on application.
Any further information the Local Representative would be pleased to give personally or by letter.

TESTIMONIALS.
From Mr. John J. Mahon, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. James M. Thomas, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infested, mixes readily in cold water, does not injure the heads, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept these entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock.'
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

HAVAS' AGENCY

Paris 26th.

The Chamber of Deputies has just thrown out, by 305 to 147 votes, the Government Bill for a revision of the Constitution and Scrutiny by List, and has adopted the amended Bill of the Committee which alters the original Bill considerably. In face of this vote and the declarations of M. Gambetta, the Cabinet has resigned 'en masse.'

REGISTRY OF TITLES.

A new era has opened for the Argentine Republic, created by the political events of 1889. Whatever partizan prejudices may think, there can be no doubt in the mind of the impartial observer that the violent overthrow of a great political party, strictly conservative in its principles, has scattered to the winds a great number of egoistical dogmas, fanatical traditions, and worn-out doctrines. If we acknowledge that 'Divine Right' was righteously knocked on the head in France in 89, we cannot help thinking that here in the Argentine Republic there also existed a species 'Divine Right' that called for a similar judgment and fate.

The old regime understood 'revolution' in only one and its worst sense. The new men appear to understand the word in its extended application to reform, the breaking down of antiquated customs and mode, of thought. What was thought impossible a couple of years ago, there iconoclasts have proved not only possible but absolutely simple; the Capital question resolved, the frontier on Rio Negro, the standing difficulty with Chili settled, paper down, or rather up to par, and many other 'impossibilities'. One good thing is that our men of the new regime are not afraid of innovations. They may chance to break their head against one, but that does not frighten them, and we think that is the kind of men we want just now. There are many things to revolutionize in the country, many abuses to fight against, many old fangled notions and prejudices to dissipate, and it is the duty of the independent press to bring these subjects to light, or rather throw light on them, press for the redress of abuses, and suggest changes where public necessity requires them.

We will commence with one great abuse, the reform of which is urgently called for: the present system of registration of titles of lands and other property. The antique Latin custom of making the Public Notary, or Escribano the only deposit of "Public Faith" should be dispensed with in this cosmopolitan and growing country. Apart from the iniquity of the expense incurred on each transference of a piece of property, there is no safeguard for the titles. They may be burnt, they may be stolen, or they may be lost, and numberless lawsuits are the result. The transference of landed property should be completely taken out of the hands of the Escribano. Each individual is as well able to make out a Deed on a printed form as a Notary Public, and no law should oblige him to pay an exorbitant price for what he can do himself for a trifle.

In no countries in the world is the registration of titles so simple as in England and her dependencies and the United States, and where so rarely a lawyer intervenes. Land and houses are there sold and transferred as simply and inexpensively as a horse or a bushel of wheat. The Government Registries will give all the information required for half a dollar or a shilling fee. The seller makes out the Deed on a printed form to be bought for six pence (in England there is also a stamp), the purchaser takes it to the Registry, a fire proof building; here it is registered for a fee of about half a dollar, and the original title deed returned to the owner. All mortgages are also registered, so that in a few minutes the state of any property in the county can be known. Compare this simple, safe, inexpensive and speedy system to our cumbersome procedure!

LONDON LETTER

(From our own Correspondent)

FRENCH FINANCES

Dec. 29th.

A French gentleman who signs 'Observateur Financier' has written to the City Editor of the *Times* an interesting letter which refers to two subjects not unlike some others enjoying the attention of the Argentine Government—the expropriation of railways and the conversion of stocks. He says; "M. Gambetta not being able to complete his administration by the adhesion of such men as M. Leon Say and M. Freycinet, whom opinion in France and Europe pointed to as giving him sufficient means to govern, his advent to power has been, in a financial point of view, the signal for a considerable enfeeblement of our credit. The rumours of the purchase of the railways by the state, of taxes on income and funded property, and of conversion, have not long in being spread, and in occasioning alarm.

Our first national stock which in October was quoted at 120, has lately fallen to 113 40, and the high prices of railway stock have suffered a corresponding depreciation.

As far as concerns the purchase of the railways, the idea has received a mortal blow at the outset by the very remarkable pamphlet which has just appeared, by our eminent economist and former Minister of Finance, M. Leon Say. The fame and importance of this pamphlet occasioned the abandonment of the project, and no doubt, there will be found some arrangement by which all interests can be conciliated, as for example obtaining from the railway companies a revising of their tariffs in confiding to them the execution of the Freycinet scheme.

However is may be, thanks to the demonstration so serious and so opportune by Mr Say, the question may be considered as buried. In regard to the question of the conversion of Rentes it is at this moment the subject everywhere of conversation and uneasiness.

The necessity for the Government to settle the working of the budget, and to continue the reductions already commenced, makes them desirous to reap the economy which would result from this large operation. In the actual state of our financial markets could this operation be attempted? And in this case upon whom could the Government rely to make it succeed? In fine, who must the Minister be who from his consummate experience, the strength he will himself bring, by the personal confidence he inspires in all the capitalists of Europe, and by his great authority, that he can assure himself of complete success in advance? What would be the preliminary measures to be taken, to prepare himself financially for the actual position of the Bourses of Paris and Lyon, and the general sway of speculation? If the Government is resolved to present to the Chambers on its reassembling a project for the conversion of the rentes, it is absolutely demonstrable, that the execution of the measure cannot be realised but under two essential and indispensable conditions.

1st—A previous understanding with the principal Bank of Paris, under the direction and preponderating influence of that great and powerful house which for more than half a century has presided in all financial operations that have marked step by step the development and prosperity of French credit and that on the morrow of our disasters in 1871 so patriotically contributed to the liberation of our soil.

2nd—The immediate adoption, as the corrollary of that understanding, of the measures necessary to try and moderate the unbridled speculation which for a whole year has invaded the markets of Paris, Lyon, Marseilles and Bordeaux, and has been propagated by the aid of a widespread publicity, remunerated by colossal gains, from the incessant competition that publicity has occasioned, recruiting proselytes even among the smallest possessors of savings in our provinces; dazzling their eyes with the splendid results of unheard of fortunes realised in a few months, and inciting by the most dangerous temptations the small capitalists to abandon the traditional investments that the father of a family looked for above all in our National Funds, and to run to new securities French, or Foreign, which with small amounts paid up have risen from 20 to 25 fold the amounts of the original subscriptions.

This situation, in provoking the lowering the rank of our public funds, threatens our general credit to the very foundations, and should, in any case, attract the attention of the Government, and particularly if it be a question of the conversion of the funds.

This great measure, which involves a capital of more than nine milliards of francs, cannot be undertaken with success except in times of calm and tranquility in all the financial markets of France. These troubled markets, departed from the ways of common sense and reason, ought to receive an official warning as a preamble to the conversion, and in default of legal means it seems to me that the Government could avoid all criticism by applying to the Corporation of Agents de Change, who, in the possession of a monopoly, are in some measure officials, and could be made instrumental in opposing a barrier to the torrent which threatens to overwhelm us. They might be invited to restrain all credits paid on certain securities up to 40, 50 and 60 per cent. per annum and beyond, and notably the sums carried over on pure speculation. The accounts would be liquidated with so much the more facility that the prices paid by the buyers, not only the first but the second and the third, would give an unhoped-for profit however much the depreciation. At one of the late meetings of the Chambre Syndicale of Agents de Change, the President expressed himself in that sense and recommended the greatest discretion. This remedy, if not too suddenly applied but moderately, progressively, would restore calm to our markets and prepare the great financial operation, the success of which confided to competent and experienced hands, would incontestably be assured beforehand, and would assign to our public credit the place which it claims in accordance with the wealth and prosperity of France."

It is understood that the preceding scheme would not be put in force until after the revision of the Constitution shall be accomplished, and that at this moment the general policy, external and internal, shall be of a nature to assure the duration of the Government.

Meantime, they announce the arrival on Wednesday, of Sir Charles Dilke. The negotiations for the Treaty of Commerce with England will be resumed with vigour between the representatives of the two states, and everything tends to the belief that before the meeting of the Chambers they will have come to an agreement and have signed the basis to be submitted to the approbation of the two Parliaments.

NATURALIZATION.

FOREIGN POWERS NOT TO BE ALLOWED TO DENATIONALIZE NATURALIZED CITIZENS.

The following article from the *New York World* is interesting in connection with the Rowe case here:—

The recent letter of Mr Blaine touching the question of naturalization and touching the rights of naturalized citizens of the United States to be secured against denationalization by foreign powers or by commissions, has created some discussion in diplomatic, legal and political circles in the national capital as well as in the press of the metropolis. There are probably one million of naturalized voting citizens in the republic. The eccentric advice has been given to President Arthur and Mr Secretary Frelinghusen by the New York *Herald* to

announce to the nations of the earth that these citizens and voters of the United States can be denationalized at the pleasure or caprice or to suit the interest of foreign states. It is not believed at the national capital that the following of this advice by the President and his newly appointed Secretary of State would specially promote the chances of either of them for a Presidential nomination in 1884. The doctrine which Mr Blaine asserts, as the *World*, has shown, is about as old as the republic. The Attorneys-General of the United States have uniformly held to the same doctrine. It has been asserted over and over again by Secretaries of State. The Supreme Court of the U. States, speaking through the voice of Chief-Justice Marshall, said of a decree of naturalization: "This judgment is entered of record as the judgment of the court. It seems to us, if it be in legal form, to close all inquiry, and like every other judgment to be complete evidence of its own validity.' Not even the Executive Department of this Government has the power to go behind such a judgment; much less has it the power to delegate such authority to a foreign state. The republic has always expected that full faith and credit be given by foreign powers to the customary proof of naturalization in this country and that proof consists of an authentic copy of the judgment of a competent court admitting an alien to an American citizenship. Mr Hamilton Fish, when Secretary of State, on the 13 of February, 1872 wrote to Mr Nelson, then Minister of the U. States to Mexico, these words, which state the whole doctrine: "A naturalization of a foreigner in the U. States is the solemn act of a court of record, and as such no foreign Government can rightfully question its sufficiency or inquire into the facts upon which it may have been based."

Mr Thos. J. Durant, advocate of the United States before the Spanish-American Commission, to whom Mr. Blaine addressed his recent letter, had some interesting things to say to-day concerning this subject. In the course of an extended conversation Mr Durant said: "The recent letter of Secretary Blaine, instructing the advocate of the United States to withdraw from the consideration of the umpire of the American and Spanish Commission all future cases in regard to the question of naturalization has attracted considerable attention from the press, a portion of which seems to wrestle in the most determined manner with the principles of international law, American jurisprudence and the precedents of the State Department. This question involves the fundamental rights of all naturalized citizens. It was one of the objections of American statesmen a hundred years ago in the Declaration of Independence that the King of Great Britain exercised his power to prevent the naturalization of foreigners in the Colonies, and it is scarcely to be believed that after the lapse of a century the American Government will consent that any foreign power shall denationalize an alien naturalized in the United States. George Bancroft, when Envoy Extraordinary and Minister Plenipotentiary to the Court of Great Britain, said in a letter to Viscount Palmerston: 'The United States would, though receiving a man to citizenship, require of him the renunciation of all other allegiance. A slave cannot have two masters, nor a freeman two lieges. In the United States the adopted citizen becomes a natural-born citizen."

The attitude of Mr. Secretary Marcy in the case of Kostza ought to be, if it is not, too well remembered to need more than a reference; but to come nearer to our own time, what was the attitude of Hamilton Fish on this subject? During his administration of the Department of State the Government of Mexico set up the pretension of inquiring into the validity of his passports granted to American naturalized citizens, alleging errors in their naturalization, and on calling the attention of Mr. Nelson, our Minister to Mexico, to this subject, Mr. Fish said:—A naturalization of a foreigner in the United States is the solemn act of a court of record. As such no foreign government can rightfully question its sufficiency or inquire into the facts upon which it may have been based. A copy of the regulations of this department in regard to passports is herewith transmitted. It will be seen from them that the greatest care is taken to prevent imposition by persons asking for passports as citizens. In the case of naturalized citizens the presentation of the certificate of naturalization is required. The passport on its face does not make any distinction between native and naturalized citizens, and it is conceived that no foreign government can without discourtesy, at least to the head of this department, attempt to make such a distinction. These views are entirely consonant with the spirit of American institutions and are thoroughly in accord with those subsequently expressed by Mr Evarts in his letter to the advocate of the United States before the American and Spanish Commission in March, as published in *The World* of April last. I may properly add that this department is of the opinion that the power of the commission for the determination of disputed cases of citizenship which may be raised before it is not in any manner judicial. The advocate of Spain may traverse the fact of naturalization, when it is incumbent upon the claimant to show when and where he was naturalized. These facts being shown by judicial proof, and it being established that the party has done nothing since to forfeit his acquired right, the limit of the discretionary power of the commission would seem to be reached. The commission does not appear to have other powers than those derived from the respective departments of State of the two countries, of whose functions it is the joint delegate, and it is certainly not competent for the Department of State, either by itself or through its delegated authority, to go behind a judicial decision of a court of law such as a certificate of naturalization."

From this it will be seen that Mr Blaine in his recent instructions to the advocate of the United States has done no more than follow the precedents set for him by the eminent statesmen and jurists who have filled the office of Secretary of State before him. A contrary decision would not only be weak and absurd, but it adhered to would imperil the rights of all naturalized citizens of the United States. No such decision will be reached.

EDITOR'S TABLE.

The first news in town yesterday was the resignation of the Gambetta Ministry in France, owing to an adverse vote of the Chambers on the Bill for reforming the Constitution. The chances are that M. Clemencaux and the Reds will now come into power. Gambetta, great a man as he is, seems to have failed miserably in his first attempt to tool the State Coach. He was scarcely a month on the box.

A Pernambuco telegram to the *Nacion* says that there was a demonstration against the Gambetta Government in Paris, at the interment of that red hot Radical, Blanqui. The police arrested 28 persons, among them that fair firebrand Louise Michel, who was condemned to a short seclusion, for exciting to hatred of the authorities. In Germany things look serious, owing to the Imperial Rescript. The ex-King of Spain wants England to give Gibraltar to the Pope. What a suggestion!

The Lavarello steamer brings dates from Europe to 7th inst and a good number of emigrants (840). She also brings the very unexpected intelligence that the British Government was thinking of abandoning Coercion in Ireland. King Humbert has announced a Monroe doctrine for Italy, viz: that he will allow no foreign power to meddle in the Papal Question.

The thermometer made another stride yesterday towards getting back to 100 Fahr. in the shade, but it only got to 83. Except for brokers without carriages and others whose legs have to be used in earning their daily bread, the temperature was pleasant enough, as the heat was tempered by a gentle zephyr.

The theatre empresarios were in very low spirits yesterday owing to the receipt of a polite note from the Lord Mayor, informing them of the new Municipal edict in reference to their establishments, and assuring them that he 'means business' and that it is no joke this time. After the three months grace, not an hour more will be given. If all the indispensable reforms recommended by the City architects are to be carried out in the theatres—and they are all absolutely necessary for the public safety—they owners of theatres are in for a hard time of it. The alterations will cost a mint of money, and if they are not made, the theatres will be shut up. In either case blue ruin is unpleasantly near. As for the Colon, the shortest and best way is to pull it down and rebuild it on the most modern plan, making it the finest and safest theatre in this hemisphere. This ought to be done.

The National Criminal Judge of the Capital, Dr John Barra, has begun well. Yesterday he issued an order to the Police telling them to look as sharp as a needle after all duelling, real or sham, and to arrest those concerned, principals, seconds, doctors, 'cocheros' etc. We trust the police will second the Judge, and, if they do, there will be hope of crushing out this evil, which has received a hard knock by the refusal of Dr Pizarro and Mr F. Halbach to fight. Both these gentlemen deserve gold medals. They have initiated a great reform.

A Tucuman gentleman named Miro has discovered a process for imitating marble so well that the keenest eye canot detect which is the genuine article. Specimens of this imitation marble will be sent down to the Exhibition.

Advices from Montevideo state that some 'novedad tremenda' may be expected there at any moment, as Santos is about to retire from the Cabinet, keeping his resignation in his hat, ready to present at any moment. In all probability this news will be contradicted to-morrow.

It was generally thought yesterday that Dr Wilde, President of the Water Board, has the best chance of getting the vacant portfolio of Public Instruction. The commercial public would greatly like to see Dr Victorino de la Plaza again in the Cabinet, no matter what his portfolio. The *Libertad* says Dr Rodriguez, Deputy for Cordoba, is the man.

Small pox has broken out in one of the city barracks. Six private soldiers down with it. There is, we believe, a standing order that all private soldiers must be vaccinated, but we suppose that it is like so many other orders in this part of the world—a dead letter.

Two more Epistles of Dr. Pizarro appeared yesterday. The bloom is off the peach, however, and the general public are now thinking of other things, but the ex-Minister's letters create as much excitment as ever in political circles.

The public at the Central Station yesterday morning were greatly shocked by the sudden death there of Mr Kohlstedt, German Consul in Montevideo, who dropped dead, from heart disease, while walking along the platform. The corpse was taking to the Oriental Consulate.

His Holiness Pope Leo has sent through the Archbishop, a most beautiful and valuable chalice as a present to the new church at Flores.

The talented contributor who so recently favoured us with an account of the snake supper on board one of the Royal Mail steamers has flown from prose to verse and now sends us some stanzas on that uterest ot ineffably utter humbugs the 'Christmas Card'. We will publish them to-morrow or next day.

The news from France yesterday was as bad as possible. The London papers were right all through. The mad financing and speculation in France has led to its natural result. The panic has spread to Genoa also.

There was terrible consternation at Chañar, Cordoba, last week, where they had 67 sharp shocks of earthquake in 24 hours. The people fled to the camp, and slept out for two nights. No damage was done, but it was the first time an earthquake was felt in those parts, and the inhabitants were terribly frightened.

There is talk in Montevideo of the disappearance of another Spaniard Tomas Alonso (the brave,) who was a resident of Durazno, like Mr. Sanchez Caballero. It is rather singular how Spanish residents at Durazno manage to lose their reckoning.

Our French friends will inaugurate their annual St. Cloud Fete to-morrow. That it will be something splendid 'va sans dire'. There will be a magnificent display of fireworks in the evening.

In Montevideo they have got up a free pen and ink fight about the intended conference at the Atheneum, in honour of Dr Avellaneda, being abandoned. Everybody is abusing everybody, right and left, and the language used is almost as strong as that of the Pizarro Epistles. It is a most laughable business—all about nothing, as usual.

A million of paper dollars was offered to the Municipality yesterday for permission to open a bullring in the city, but the Lord Mayor refused peremptorily. It is singular to witness the persistent efforts made to introduce this brutal and degrading amusement in the South American Athens.

Three hundred and fifty cases of goods for the Exhibition have been despatched at the Custom House. They come from London, Liverpool, Hamburg, Marseilles and Havre. From Asuncion 228 cases have arrived.

Dr. Conil's statistics (in the *Revista Medica*) of the population of Buenos Aires last year are very interesting. The total number of emigrants and passengers of all classes that arrived here was 52,792, and 27,614 left, showing a balance of increased population of 25,178. Of these 15,000 remained in the city and the rest went to the provinces. This is not such a favourable state of affairs as could be wished, as it shows that there is not such a large proportion of agriculturists amongst the arrivals from Europe as was supposed.

Number 3019 won the big prize of 10,000 pats in the San Luis Lottery yesterday.

Some beautiful aquatic plants have arrived from Corrientes for the Continental Exhibition. The aquatic plants of Corrientes are said to be the most beautiful in any part of the Republic."

There was a general stand-from-under feeling in the market to-day, everything gave way and gold went up. There is no denying the fact that the dispute between both Governments prepared the way to the weakening of all stocks and securities in the market. The Pizarro correspondence has created much suspicion and distrust, and these letters are shaking the confidence of the market. The rumors flying about are various, and the general commercial crisis in France, Belgium and the North of Italy has thrown a gloom on the market. Gold rose to-day, although much of it is offered on the market, but rates on time slackened. At present nobody wants to owe anything in gold as there is a general impression that the premium on gold will rise. The gold business of the day was not very important; prices opened at 25.10 and closed at 25.15 for cash. For end of the month the rates are the same, for end of March gold was sold at 25.35. On the top of telegrams announcing failures in Verviers and Bordeaux comes the news that several firms in Genoa have smashed. The *Courrier de la Plata* this morning had some interesting details about the state of the Paris money market in the month of December. It appears that the Prime Minister Gambetta had an interview with Mr Rothschild on the state of financial affairs. Much was expected from this interview, but the news of the crisis in France and the resignation of Gambetta and of his Cabinet comes to dispel the illusion. Frenchmen in the market state that the failure of Gambetta in his bill on the revision of the Constitution forebodes the advent of a more moderate Cabinet, and closes the doors to all attempts of the radical party to get into power. The Chamber, to judge by the failure of the Gambetta bill, will never allow Clemenceaux in the Cabinet. It was rumured that the houses that failed in Bordeaux numbered twelve, and most of them carried on business with India and the U. States. In Genoa there is also a crisis, which means more emigration from the North of Italy to the R. Plate.

The Cedula market ruled exceedingly weak; it is long time since the stock has been so depressed. Series A was sold to-day at 99½, under par, the best interest paying stock in the market. Series E has suffered a real 'degringolade', tumbling from 89 to 84 o/o; the series is exceptionally weak and was sold for end of March at 83 o/o. The entire Cedula market looks downwards, and the only cause can be found in the rise of gold. When the premium on gold rises all stocks in general go down, and Cedulas follow in the wake. The feeling of the market is weak.

There was a panic in the National Bank Shares market, and parties who realized in the first days of the week rub their hands in glee. The bulls let go to-day and prices fell with every sale. The King lost heart and threw Shares on the market, which drove down the market very suddenly. The break in the stock was noticeable last night, although there were few sellers, and few anticipated the bearish aspect of to-day's operations. Those who hold Shares can are all right, as they can afford to keep them, and the stock pays a good interest, but others can only get rid of the stock at a heavy shave. It must be borne in mind that last week and during the first days of the present one many parties realized; they bought up Shares in the beginning of the month at 123, and were only too glad to sell at 124 for end of the month, and 133 for end of February. As the liquidation of the month approaches misgivings increase, and the differences to be met are very heavy. Prices to-day tumbled from 128, last night's closing rate to 124, a fall of 4 for end of the month. The fluctuations were tremendous and 7,400 shares were moved off like burning coals. Close on 5,000 shares were sold for end of February at 129, 128 and finally 127; only the other day sellers asked 133½. For cash nothing is doing; only 29 sold at 126, which does not reflect the market rate. It remains to be seen now if outside parties will step in and buy up at present rates, the opening ones of the present month.

In exchange there is little doing and rates are unchanged.

In Nat. Stocks and Gas shares nothing whatever done.

Mr Pizarro's letters in to-day's *Republica* and *Patria Argentina* were read with much interest to-day, and very many fear that the upshot of the controversy will be a split between both parties, in spite of the assertions to the contrary made by the leading organs of the situation. There is very much gall in the attacks and covered answers of other papers. Much is deduced from the disputes.

The str. Colina sailed on the 24th inst. for Antwerp with the following cargo:—

Mr Tornquist was welcomed on Change to-day on his return from Montevideo.

5,000 hides of Costa & Becco, were sold to-day in Ensenada at 80 1/20; weight 65 lbs.

Very much importance was attached on 'Change to the change in the provincial list of candidates for Congress. This is another proof of Governor Rocha's wish to keep on cordial terms with the National Government. Both Governments must advance hand in hand, and lay aside all the party animosities that have risen of late. Some of the most influential candidates of the Republican party have been struck off the list: so much the better. Congress will sail in smoother waters, without any hot-headed partizans.

The dissolution of the firm of Kruls and Bankier was announced on 'Change to-day.

Owing to the rainy sterday the arrivals in the Once to-day were very small, only 1800 arr. arrived. The sales were also very small.

The Pampa leaves to-morrow with the following cargo—
From Buenos Aires

At afterhours gold for cash weakened and over 80,000 pats were sold at 25.10. In Nat Bank Shares rates stiffened and a large amount of business was done; rates rose to 127 for end of month, but subsequently relapsed. The closing rates were as follows:—
For end of month at 126½
For end of February at 128.

Several European telegrams were received to-day, but they have been withheld. The news is bad, especially from Paris, where everything looks very gloomy, from a financial stand-point. Three leading firms received telegrams to-day.

The Elizabeth Scott has been chartered to load bones in Paysandu for New York at reserved rates.

Messrs Young & Walter's samples of wool for the Continental Exhibition are attracting much attention in Montevideo. It appears that the wools in question are magnificent and the finest ever seen in that market. Messrs Young & Walker have their estancia in the Torre Alta, in the department of the Rio Negro.

There is a rumor in Montevideo to the effect that all hopes of launching the Verragaud Banco Mixto are not given up. It is surmised that the concessionnaire can yet fall back on the Paris capitalists who yet cherish fondly the memory of the old Honduras Bonds. Paris will not take up what London has thrown off. As a 'dernière resource' financiers in the Monte look to the Pesitos, where many influential Argentine capitalists are seen bathing every morning. But Argentines have gone so deeply into the Deuda Amortizable of late, and find it so difficult to get rid of them now, that they will be saved from entering this new scheme, although the *Telegrafo Marítimo* throws out some hints as to the probable interference of Argentine capital in the matter, and in connection with Bancos Rurales in the departments.

The following sales are reported in Montevideo:—

We clip the following from the *New York Herald* of the 24th Dec. giving the state of the money mark t:—

"The general market was so much shaken up by the break in Denver on Saturday that little or no improvement in prices was expected this morning. Those who thought so were wise in their generation, for no improvement occurred. As a matter of fact quotations were inclined to slip off, and had it not been for the interposition of strong parties who checked the decline the whole list would have run off towards lower figures. As it turned out the market was kept fairly steady, fluctuations being inconsiderable, transactions moderate, and the general opinion of what is to be expected in the future as mixed as ever. At the opening a few of the specialities, which are simply regarded as hangers on to the main list, improved a point or two, but the favorites declined. After a brief interval, they all declined together. In the afternoon a very moderate attempt was made to hoist the Gould stocks and Denver and Rio Grande, and then followed a general improvement in prices. The advance, however, was small, and without significance. In a word, we have had no more lackadaisical a market for many a day. The present feeling is bearish, though for that matter it may be bullish to-morrow should the slightest pretence be offered for its becoming so. The collapse in Denver is regarded by bears of an intensely pugnacious nature as a sort of handwriting upon the wall which foreshadows disaster to more than one stock upon the list that is as light timbered as the Colorado fancy. Fear that this outcropping of weakness may be repeated in quarters little expected has toned down the desire to buy stocks to-day. The most active stocks this morning were Northern Pacific preferred, Lake Shore, Wabash, Denver, Texas Pacific, the Vanderbilts and the coal carriers. During the day quotations were from time to time fractionally lower and higher, but only fractionally so. Without news or rumors of any description, or the aid of great operators to affect values, it was only remarkable that prices changed at all. Closing figures were fairly steady, although there are more bears than bulls in the market and a greater disposition to push prices down than up. Considering the amount of money to be disbursed on and after the first of the year and the decline in prices which has already taken place, it would seem somewhat hazardous to sell the market short at present figures."

The news from France continues bad and our remarks with regard to Cabinet crisis being connected with the difficulties in commercial circles in France turn out true. Gambetta has split on a rock on the revision of the Constitution; the measure was thrown out by a large majority, and the Prime Minister goes out. It is questionable now who will succeed to the great tribune. The squeeze in financial circles seems to be general, since telegrams announce heavy failures in Bordeaux and Verviers, and bad prospects in general.

The mails from Rio bring the following new:—

"Exchange.—On the 9th the Banks retired from 21½ to 21¼ and this latter rate ruled up to 13th.

"To-day Banks came out at21d and the market opened flat. The decline is due to the small busin ss done in coffee, and consequent scarcity of private paper, and to the flatness of the Exchange markets in the North.

"Private paper was held by drawers for 21¼ and at this rate the market was cleared off on the 14th. Some transactions were effected at 21⅛ and 5/16.

"Francs have been passed at 443 to 446 reis for private paper, Bank rates have been at 447 to 453.

On Wednesday February 27th
at 12 o'clock

We shall sell the above breeding establishment so justly famous for the many victories achieved on the turf by the exc llent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid in forming this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determinatico to retire from business.

Zeuene, San Jeane, Venus, Toscas, Pichon, etc, have given on our races courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of Las Barrancas'.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

300 Squares of extra-superior Camp

The richest and most complete in the neighbourhood of the Capital, land high, and undulating and consisting of beautiful vales, water permanent, fruitful soil suitable for agriculture, will be sold in small lots or in one lot. The attention of agriculturists is directed to the fact, that the camp is on the river Conchas adjoining the Morales' bridge, alongside Molino Bancalari. This camp should be visited there is no better in the province in regard to height, beauty, splendid pastures and picturesque situation.

And an opportunity of convincing yourself of this fact is offered you by attending the sale which will be held on the camp itself.

On Sunday the 4th of September, at 4 o'clock in the afternoon, we shall proceed to sell to the highest bidder this magnificent piece of camp, divided into lots to place it within the reach of small capitals.

This camp needs no praise from us; a visit from anyone interested in acquiring land for cultivation or pasturage will be quite sufficient.

In regard to height it is most elevated, its undulations reminding one of the Banda Oriental.

From the ground a fine view is obtained of Moron, Moreno and Bella Vista, &c. With regard to the elevation o the land we remember the remark of a gentleman occupying a high position in the Government—"If it depended on me, I should have the new Capital built here." So much for the height of it.

The land is covered with grasses of the very best kinds suiting for pasturing or for wintering animals. There is an offer to rent the land with a contract at $120,000 m|c per annum. Therefore as agricultural land or for pasture, this ground is unsurpassed, and is equally adapted for either. The land has 2,065 varas frontage on the river Conchas by 3,600 vs depth, it is situated alongside of Morales' bridge, on the right hand side, and has been subdivided in small lots, but can be bought in one lot at option of purchaser.

For plans and further details apply at our mart San Martin 51.

Remataremos a la mas alta postura y dinero de contado siempre que pase la base arriba indicada, por orden de sus propietarios:

Dos lotes de campo, cada uno de 4 leguas cuadradas.

Estos campos distan 90 leguas unicamente de Buenos Aires, cuatro de Italo y diez de Fortin Gainza. El ferro carril de Clark que debe construirse en prolongacion desde la ciudad de Mercedes (Ferro Carril del Oeste) hasta Villa Mercedes del Ferro Carril Andino, pasara inmediato a estos campos y entonces quedara a un dia de viaje de la capital.

Los pastos son inmejorables, son mezclados y de superior calidad como se podra ver por la diligencia de mensura.

Dejamos a los interesados que le den el valor que verdaderamente tienen, pues pasando la base de $5 ,000 venderemos.

THE STATE OF IRELAND.

Yesterday upwards of 10,000 people accompanied by dogs, bands, and banners, assembled at Knockacree, where Lord Huntingdon's horses had arrived for the purposes of fox-hunting. The various contingents were headed by Leagures, and the processionists displayed green favours in their hats and button holes while others carried green boughs. The procession marched to Knocklisheengown, a famous fox-cover North Tipperary. Several men carried long poles, to which were attached foxes, hares, rabbits, and other game. The police, who were unable to prevent the gathering, watched the proceedings.

A lad named named Pigot, aged thirteen, was arrested at Gilford, early on Sunday for whistling 'Harvey Duff' at the police.

In the county Wexford, thereee fourths of the tenants have pledged themselves to pay no rent until the suspects are released Scarcely any rent has been paid in the county, and the laudlords are organizing a defence association.

Mr, J. D. Pyne, of Lisfeany Castle, county Waterford, was arrested yesterday morning under the Coercion Act, charged with inciting persons aglanst paying their rents.

A large party of men with dogs yesterday went upon the preserves on the Bunartty Castle estate, for the purpose of killing game, with which to supply the suspects in Limerick Gaol. They were confronted by a powerful body of military and police, and at once dispersed.

On Christmas night a farmer named Driscoll, residing near Dirmoleague, was fired at. The greater part of the charge lodged in his legs. A local doctor was called in, and succeeded in extracting a portion of the charge. The reason assigned for this act is that Driscoll had paid his rent.

Peter McHugh, a farmer's son, was brought up at Mohill on Saturday, charged with being in possession of treasonable documents. He was arrested for drunkenness,on be ing searched a paper was found on him containing a Fenian oath. He was remanded for a week.

Large printed notices have been posted at Tulla and the neighbourhood, warning people, under threats of the consequences, against paying rent pending the release of the suspects.

Two hundred and fifty police, accompanied by the men of the 64th Regiment and a party of the Army Service Corps in ambulance waggons, proceeded yesterday to Moydrum, Glynwood, and Ballinahown, co. Westmeath, for the purpose of preventing a projected Land League hunt. A few boys, impelled by curiosity alone, made an appearance. It is said the authorities have been hoaxed.

It was found yesterday morning that on a number of the houses in the leading streets of Dungannon, co. Tyrone, there had been placed during the night the words, "No Rent", "Boycott". The letters were put on the walls in tar. The constabulary have been as yet unable to discover the offenders.

Carrigaline Draghunt races, held yesterday, were a great success, nothwithstanding an attempt on the part of the Land Leaguers of the district to 'Boycott' them by holding an opposition meeting. There was a large police force at both meetings for the preservation of the peace, but no disturbance took place. William Johnson, brother of Lieutenant Johnson, who was killed in battle during the Zulu campaign, was thrown heavily at the last fence whilst leading the field. He sustained fearful injuries and death is momentarily expected

The *Chicago Tribune*, writing upon the Irish National Convention in that city, says: "In the address and resolutions of this convention, the 'No Rent' manifesto is referred to as the policy of 'passive resistance,' and the American public are left in doubt whether this convention means to endorse the non-payment of rent for land as a permanent policy in Ireland, or means to endorse it only during the imprisonment of the leaders. In the latter case it may be excused as an act of retaliation for an arbitrary exercise of power; but, if the convention means that the payment of fair rent, which Gladstone's bill provides for, shall henceforth cease in Ireland, and the payment of rent is a proper cause for the assassination or 'Boycotting' of the tenant, then this address expresses sentiments which, instead of enlisting American sympathy will merit the reprobation of the whole American people. The American people are eminently practical in their politics and cool in their deliberations. The address and resolutions concede and declare that Ireland is not prepared for a forcible assertion of independence, and American readers will ask, What, then, does this convention advise the people of Ireland to do? They will search in vain for any practical measure proposed to benefit the people in Ireland. It is true that the convention made a levy of 250,000 dollars upon the Irish in America; but for what is the money used or expended? It is not stated in the proceedings. The American public will look in the proceedings of this convention for some explanation or reason why the people of Ireland should reject the Land Bill, should refuse to accept leases at reduced rentals under it, and refuse to accept their improvements, which it restores to them, and the right of free sale which it secures to them—a privilege worth 50 dollars to 150 dollars an acre of each tenant's holding. Revolution is not proposed, because it is confessed to be impossible. Separation is not expected, because Great Britain is solid against it. What, then, is the remedy proposed by this convention for Irish grievances? The only thing proposed is to beg and collect money in this country, to be expended how and for what is not told."

PARIS LETTER

(*From our Own Correspondent*)

December 26th

There is a curious change taking place in the shop keeping classes of this city: the monster houses have crushed out the medium establishments; only the very modest or the most humble appear capable of continuing the struggle for life; and how? The owners are simply artizans, who convert the shop into a dwelling and a work-room, and there produce, and sell on the spot 30 per cent cheaper. Gambetta has promised a bill on the labor question he is believed to be favorable to loaning state money at a very low rate, to artizans whose character will justify confidence. Settling the competition of prison work, and compelling charitable institutions to take out trade licences, may help.

The Vienna tragedy has revealed numerous inventors who advertise, that if their system of lighting had been adopted, all would have gone well. The authorities here are renewing their vigilance; but the most perfect mechanical arrangements will avail but little if responsible agents lose their presence of mind in the moment of peril. Every theatre in Paris has its fixed number of firemen present at each representation: each man has his special duty to execute, and under no circumstance is he ever interfered with.

The taking of the Census, after being a subject of alarm, is now being ridiculed Up to the present the whole business was clumsy and inexact; it occupied several weeks, owing to a census clerk calling and noting down your 'viva voce' answers, and which had to be given under a penalty for refusal. For the first time in history Parisians will number themselves, and on one day. But as it would never do to expose this tabulated autobiography to the eyes of the house porters of whom there are 80,000 in the capital, and that famine, pestilence, war or revolutions never lessen, gummed envelopes are supplied in which the papers are to be enclosed and the census man will call to personally receive them. It would never do for ladies to have remarks passed on their age in a porter's lodge, nor would men under a cloud like the history of their 'etat civil' to be known. Oddly enough, there is no law to compel correct answers to be given, still less, any answers at all. Each censor is entrusted with looking after 1500 families, for this he receives the sum of frs. 45.

The 'concierges' are commencing to recognise tenants, proof that New Year's Day and their tips are nigh; a more agreeable view is the happy faces of children, grateful to the 'Petit Jesu' for depositing toys on the hearthstone, or the eve of the 24th and expectant of gifts from parents a week later: doctors assert that these great expectations, while unsatisfied, keep children in good health, but that later a reaction tells: I believe the subsequent deranged stomachs are caused by over consumption of 'bonbons.' The shops indeed look very gay and tempting, and we like to see the annual scenes repeated. So far I do not perceive any actual novelties; these appear however only at the last moment, to avoid piracy. The United States promise to flood the market with toys, to take revenge on Monsieur for excluding so long excellent bacon; American toys are too dear, and the makers seem to forget a toy is an article made to be smashed, not a joy for ever. For Christmas piece—France has neither pantomimes nor boxing nights; little folks will have 'The Thousand and One Night.' A manufacturer of Persian sweet-meats gives the illustrated fairy spectacle gratuitously to his clients; in return, he has the free right and monopoly to sell Sherbets and Bagdad lemon drops inside the theatre. In the musical world there is nothing new, but the elegant extracts from the old composers atone for the paucity of original compositions. I ought to add however, that forty new comic songs took out copy right during the last four days, for execution in cafes, concerts.

Lucifer matches form a monopoly in France; it is rumoured that the Company recognises contraband productions, if the latter, unlike their own, light on being struck.

A poet who tricked an audience by reading several yards of stanzas, without first giving warning, was reminded that geese ever, cackled before laying. The poet has not since been heard of.

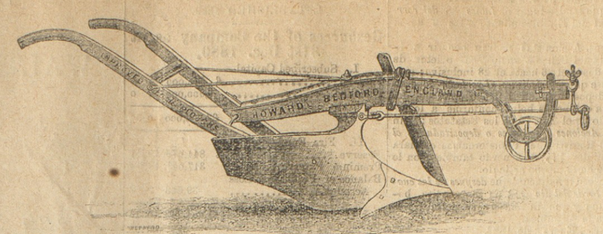
HOWARD'S IMPROVED AMERICAN PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Machines kept in Stock by the Principal Hardware Merchants.

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880.—To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy, a Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

National Money.

The following decree has been issued by the National Finance Minister ordering that from February 1st all national liquidations be made in national money:—

National Finance Department

Buenos Aires January, 22d, 1882.

It being necessary for the E.P. to adopt some measure to secure, without difficulty, the fulfilment of the law of November 5th of last year, which determines the unity of money in the Argentine Republic; and considering:—

That before the time arrives to comply with what is specified in article 8 of said law it is well in order to facilitate the observance of the same, that the national unity be determined as a base of official values.

For although the Law of November 5th of last year allows the use in all documents of other moneys or unities than those named in the same, it does so only for the time being, and until such time as the amounts stipulated in article 7 of said law are coined.

That notwithstanding that the laws of the budget and of custom dues have been sanctioned in harmony with the unity of the money existing previous to said law, it is expedient that henceforward in all documents or liquidations, the equivalent of values be expressed in National Money, which is the sole one that must be used for keeping accounts and whose relation with other moneys in circulation has been fixed by decree of December 2nd, of last year.

For these reasons:—

The President of the Republic

DECREES

Art. 1. From the 1st of February next, all liquidations which may be made in the National Offices, in fulfilment of the Budget Law for 1 82, of decrees or special laws to be complied with in the same year, or of the Customs Law, shall have their equivalents expressed in national money, even when the payment is made in accordance with the former money, and the entries in the account books shall be made in the same form.

Art. 2. From this date all emissions or exchanges of public bonds shall be done for their equivalent in conformity with the unity of the legal money; excepting those whose emissions may have already been decreed, or the printing of which has already been ordered.

Art. 3. All contracts celebrated in any of the moneys allowed, shall express the equivalent in National Money, even though the payment were made in the former.

Art. 4. Let this be communicated, published and inserted in the National Register.
